Dear Mr. Lynn:

Thank you for your response to my April 16 letter regarding temporary abandonment of the Jackpile-Paguate Mine.

Please notify this office when the locked gate and fence has been installed across the road between Dump 6B and natural ground to the north so that an inspection may be conducted.

Your reasons for discontinuing the exploration borehole abandonment program are acceptable, and I agree that this program will not resume until reclamation of the Jackpile-Paguate Mine begins.

Thank you for confirming our agreements about surface fans removed from ventilation shafts and continued pumping at the P-10 and P-13 Mines.

Sincerely yours,

Dale C. Jones
